

TRIGA® GO QUEUING SYSTEM

[Enquire for Pricing](#)

The Triga Go® textile queuing system offers maximum branding exposure with an unparalleled 100% brand real estate per square metre of hardware. In other words, no hardware is visible!

This is unmatched in the industry. By making your crowd control solution work for you, you are able to realise real marketing return on your original investment.

Interchangeable textile prints mean that you can cycle your marketing campaigns as you please using the original re- configurable hardware.
